Dental Insurance and Reimbursement Coding and Claim Submission Manual

For almost 15 years this continually updated text has been the dental profession’s authoritative resource for accurate coding and comprehensive clinical documentation. Now revised and expanded to reflect the most current 2009 - 2010 changes to the official “Code on Dental Procedures and Nomenclature.”

Conveniently color coded as well as spiral bound for both the clinical and administrative teams.

Additional descriptors along with sample narratives and payment parameters complement the no-nonsense approach to reimbursement management.

The comprehensive coding index takes you to as well as supplements Tom’s simplified system of streamlined administration.

Never again will you have to wonder what code to use when documenting the patient’s chart and billing their plan. Your coding and administrative challenges are soon to be a thing of the past.
